

MIDAS # 3756

MUD POND

MECHANIC FALLS AND OXFORD TWPS.,
OXFORD AND ANDROSCOGGIN COS., MAINE

MUD POND

Mechanic Falls & Oxford Twp.,
Androscoggin & Oxford Co.
U.S.G.S. Mechanic Falls, ME (7.5')

Fishes

White perch
Yellow perch
Chain pickerel

White sucker
Pumpkinseed sunfish

Physical Characteristics

Area - 19 acres

Maximum depth - 15 feet

Temperatures:

Surface - 76°F

14 feet - 73°F

Principal fisheries: Chain pickerel

Late summer water quality is excellent for resident warm water fisheries. However, the pond does not thermally stratify during the summer to provide an area of cold water suitable for trout. The presence of competing and predatory warmwater fish further limits opportunities to manage for trout. Mud Pond is best managed for warm water fish.

Angler access is restricted to permissive trespass and there is a need to acquire public access to this pond.

Surveyed – August 1957
